

MARIAM IBRAHEM GHALWASH

Data Analyst Intern

Mansoura, Egypt | +20 102 818 5340 | mariiamghalwash@gmail.com
LinkedIn | GitHub

PROFESSIONAL SUMMARY

Data Analyst Intern and Computer Science student at Mansoura University with a strong foundation in Python, SQL, database design, and data visualization. Experienced in data cleaning, data manipulation, Exploratory Data Analysis (EDA), feature engineering, KPI reporting, and extracting actionable insights through hands-on analytics projects. Currently enhancing practical expertise through professional Data Analysis training in the Digital Egypt Pioneers Initiative (DEPI).

EDUCATION

Mansoura University – Faculty of Computers and Information Sciences

Bachelor of Computer Science
Computer Science Department

Expected Graduation: 2028

TECHNICAL SKILLS

Data Analysis & Visualization: Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel, Exploratory Data Analysis (EDA), Key Performance Indicators (KPIs), KPI Reporting

Data Preparation & Manipulation: Data Cleaning, Data Preprocessing, Data Manipulation, Data Collection, Data Extraction, Feature Engineering, Statistical Analysis, Correlation Analysis

Databases & Querying: SQL, SQL Server, Database Design, ERD Modeling, Relational Schema Mapping

Programming: Python, C#, HTML, CSS, Programming Skills

Tools: Git, GitHub, Google Colab, Jupyter Notebook

SOFT SKILLS

Analytical Thinking | Problem Solving | Critical Thinking | Communication

Teamwork & Collaboration | Time Management | Attention to Detail | Adaptability & Self-Learning

PROJECT EXPERIENCE

Superstore Data Analysis & Automated Reporting

Individual Project

Python, Power BI, SQL

- Cleaned and preprocessed **9,996 retail records** using Python (Pandas, NumPy) to improve data quality and ensure data integrity.
- Manipulated and analyzed retail data to identify sales trends, customer purchasing behavior, and key profitability drivers.
- Conducted Exploratory Data Analysis (EDA) and correlation analysis to discover meaningful patterns and relationships.
- Engineered key business features, including Profit Margin, Shipping Duration, and Sales Performance Category.
- Designed custom Key Performance Indicators (KPIs) and interactive reports using Matplotlib, Seaborn, and Power BI to communicate actionable business insights.

TRAINING & CERTIFICATIONS

Digital Egypt Pioneers Initiative (DEPI) – Professional Data Analysis Track

2026 – Present

- Enrolled in professional training covering data analysis methodologies, advanced SQL querying, data preparation, and Business Intelligence (BI) tools.
