PROFESSIONAL SUMMARY

Computer Science student at Mansoura University with a strong foundation in Python, SQL, database design, and data visualization. Experienced in data cleaning, Exploratory Data Analysis (EDA), feature engineering, and KPI reporting through hands-on analytics projects. Currently enhancing practical expertise through professional Data Analysis training in the Digital Egypt Pioneers Initiative (DEPI).

EDUCATION

Mansoura University – Faculty of Computers and Information Sciences

Bachelor of Computer Science
Computer Science Department

Expected Graduation: 2028

TECHNICAL SKILLS

Data Analysis & Visualization: Python, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel, EDA, KPI Reporting

Data Preparation: Data Cleaning, Data Preprocessing, Feature Engineering, Statistical Analysis, Correlation Analysis

Databases & Querying: SQL, SQL Server, Database Design, ERD Modeling, Relational Schema Mapping

Programming & Web: Python, C#, HTML, CSS

Tools: Git, GitHub, Google Colab, Jupyter Notebook

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork

Time Management | Attention to Detail | Adaptability | Self-Learning

PROJECTS

Superstore Data Analysis & Automated Reporting

Individual Project

Python, Power BI, SQL

- Performed robust data cleaning and preprocessing on retail datasets using Python (Pandas, NumPy) to ensure data integrity.
- Conducted Exploratory Data Analysis (EDA) to uncover sales trends, customer purchasing behavior, and profitability drivers.
- Engineered key business features, including Profit Margin, Shipping Duration, and Sales Performance Category.
- Designed custom KPIs and interactive reports using Matplotlib, Seaborn, and Power BI to communicate actionable business insights.

TRAINING & CERTIFICATIONS

Digital Egypt Pioneers Initiative (DEPI) – Professional Data Analysis Track

2026 – Present

- Enrolled in intensive professional training covering data analysis methodologies, advanced SQL querying, and Business Intelligence (BI) tools.
